

General.

Specac Limited is wholly committed to ensuring that all activities undertaken by the 'Organisation', are carried out with due regard for any potential environmental impact from our products or services. The Leadership team, in acknowledging that it has a duty to take a leading role in meeting the requirements of the Organisation's environmental management system, are fully committed to the provision of appropriate time and resources in achieving and maintaining certification to the ISO14001:2015 Environmental Standard.

Environmental Compliance.

Specac Limited has produced this Policy, as a declaration of our commitment to deliver our products and services through our various activities, with due regard for the environment, and in a manner which considers the nature, scale and environmental impacts (potential or actual) of our undertakings, which fulfils the defined requirements of the ISO14001:2015 standard, and considers the needs and expectations of all relevant interested parties.

Legislative Compliance.

Specac Limited will monitor for changes, and comply with all applicable environmental Legislation, statutory authority guidelines, relevant industry standards, and when necessary, and where it does not conflict with Regulatory requirements, with specific customer requirements.

Continual Improvement.

Specac Limited is committed to ensuring that the potential to affect the environment, is a consideration of everything that we do. This is achieved whilst continuing to develop new methods and systems and the adoption of new technologies, whilst striving to optimise efficiency, and to continually improve our environmental management system, as a means of achieving ever higher standards of operation, and enhance our environmental performance.

Minimising Environmental Impact.

Specac Limited recognises that works cannot be undertaken without impacting on the environment, be this positively or negatively. The 'Organisation's' activities will be subject to on-going review, and be controlled to minimise, as far as is reasonably practicable, any risk of adversely affecting the environment. To facilitate this process, the 'Organisation' has a clearly defined procedure for the identification, setting, monitoring and reviewing of all identified environmental objectives.

Protection of the Environment.

Specac Limited will take positive action relating to relevant environmental issues, to preserve, and wherever possible, to enhance the environment. Specifically, the 'Organisation' has implemented measures to reduce waste being sent to landfill, to reduce our energy consumption, and ensures that the environment, and the potential for impacts, is a consideration in everything that we do, including the safe handling and appropriate storage of **ALL** chemicals and waste materials, as a means of preventing pollution.

Communication and Information.

Specac Limited ensures that this Policy is effectively communicated to **ALL** within the business, to ensure that they are fully conversant with, and able to assist the 'Organisation' in meeting the relevant requirements contained within this document. The Policy will also be available to **ALL** relevant interested parties, as required. This Policy, will be subject to review, and any changes required as a consequence, will be communicated appropriately to **ALL** interested parties.
